EPILEPSY
NEW ZEALAND

Kia titiro ki te tangata / See the person

SEIZURE - FIRST AID

Collapsed & Shaking? Epilepsy Seizure?

- Cushion person's head
- Note the time
- Roll the person into stable side position when convulsions have ceased
- Stay with the person until fully aware

Stable side position

DON'T put anything in mouth, restrain or move unless in danger

Call ambulance on 111 when:

- You don't know person has epilepsy
- Seizure exceeds 5 minutes
- Second seizure follows
- Person is injured
- In doubt
